# MANAGED SERVICES

Nxtra Data is in a strategic partnership with Century Link to provide high end managed services and IT services to its clients in India.

Century Link Technology Pvt Limited, a subsidy of CenturyLink Inc. a global communications, hosting, cloud and IT service company enabling millions of customers to metamorphose their IT business.

We understand managing daily IT operations can be time-consuming and deprive you of precious time on core business activities. It is cumbersome and costly to build and manage a flexible, agile and scalable IT infrastructure using in-house capabilities. The smart alternative for enterprises can be to outsource the management to a trusted service provider like Nxtra Data. Our Managed Services solutions are tailored to the specific needs of enterprise consumers eliminating the burden of managing and maintaining complex hosting environments so that you can focus on business and revenue driven programs.

## STORAGE AS A SERVICE

Pressure is mounting day by day. As a whole, data in the world is growing at a rate of over 30% per year. It is important for your business to make all the data readily available at the lowest cost. Nxtra's storage as a service is flexible and will enable you to efficiently deploy automated services for managing, recovering and archiving your data.

Choosing the right storage service provider is critical for business today. Unfortunately this process is usually a story of compromise. Thankfully at Nxtra Data we are powered by INFINIDAT which helps us deliver cutting edge scalability, unmatched reliability and trust.

Pay only for the data stored.
